The South 40

Treat tobacco plants now

By JAMES A. SMITH
Extension Agent

Some tobacco growers report that plants are nearing the size to transplant. If you didn't use Ridomil at seeding, better get a blue mold protectant on the plant beds. A good fungicide such as Ferbam, Maneb, Mancozeb, Maneb + Zineb, Metiram or Zineb at least weekly should provide adequate protection.

A lot of orchardgrass and fescue hay is approaching the proper time for harvest. Cutting in the boot to early bloom stage will give the highest quality of forage.

Now is the time to prepare for no-till seeding of alfalfa next fall. One of the better methods is to seed millet or one of the sudan-sorghum crosses this month. Take off a cutting of hay and kill the stubble for an August seeding.

Soil tests are slow coming in, there is a two week backlog. If you need to seed soybeans and are unsure about the pH, better add some elemental molybdenum to the planter box. The recommended seed treatment is one ounce per acre.

The U.S. Department of Interior is promoting the adoption of a wild horse or burro. In parts of the west these animals have increased to the point that they are destroying vegetation, thereby affecting the environment and competing with deer, antelope and other wildlife.

A pick-up point has been established at Lewisberry, PA and another is planned for Cross Plains, TN later this year.

We have adoption application forms if you are interested. The estimated cost at the Pennsylvania location is $215 for a horse and $140 for a burro, at the Tennessee site it's $210 for a horse and $130 for a burro.

Piliguard is a new vaccine for pinkeye that is approved by USDA. If the vaccine is used, good fly control program needs to be put in place. We aren't sure how long one shot will last, but we are guessing that you'll need to administer at least two vaccinations 3-4 weeks apart. Vaccination needs to be made 6-8 weeks before pinkeye season.

Vaccine is purchased through your veterinarian. It is labeled for beef and dairy animals.

Red Maple leaves can kill horses. Leaves must be wilted or dried to be a problem, but they remain toxic for 30 days.

No deaths have been reported from Red Maple leaves in Virginia, but cases have been reported in Tennessee, North Carolina and Georgia.

As a precaution, remove Red Maple from around pasture fences. This prevents the animal from having access to them.

Orthene is now labeled as a tobacco transplant water treatment for control of cutworms and aphids. Aphid control can be expected for 4 to 6 weeks. If large numbers of cutworms are present, there will be some damage as they have to feed on the treated plants before they are killed. Rate is one pound Orthene per acre.

The spring issue of **The Flue Cured Tobacco Farmer** describes vividly the situation flue-cured growers face; be sure to read it.

A new correspondence course, "Leadership in Groups and Organizations," is available. It is arranged in four sections with two written quizzes. The course relates to leadership, concepts of organization and leadership functions.

If you have a leadership role in an organization or would like to at some future date, I recommend it to you.

There is a $20 registration fee which covers cost of all materials. Call our office for an application form.

There's a lot of clover in some pastures–you might sleep better is poloxalene is available to your cattle as a bloat prevention. This material is available in salt-mineral blocks or as a top-dress for feed. Animals need to get 1 to 2 grams per 100 pounds of body weight daily. Bloat-Guard is the tradename of one of the materials.

A concentrate liquid drench is available to treat affected animals. When mixed with water, it can reduce swelling, pressure and distress. Having some on hand is good insurance.

Alfalfa growers with silos may want to consider wilting the first cutting and putting it in the silo. With the rain we've had, it may be difficult to cure this first cutting.

DAVID McDONALD, an eighth-grader at Appomattox Middle School, was the fourth-ranking student in this region in a contest sponsored by the Virginia Mathematics League in February. Each school in this region–which includes Appomattox, Brunswick, Charlotte, Cumberland, Halifax, Mecklenburg, Nottoway, Prince Edward and Surry Counties, and Greensville, Lynchburg, and South Boston–sent in the scores of the five highest scoring participants. The AMS team also ranked fourth in the region. David is the son of Mrs. Geri McDonald of Pamplin.

Stress seminar set

Dr. Nancy Young, a licensed professional counselor, will be the instructor for the Stress Management Class to be held Monday, May 21, from 7 p.m. to 9 p.m.

Dr. Young has worked as a consultant, as well as conducted counseling and training programs for businesses, industries, and other organizations since October 1978.

The class is offered by the Marketing and Distributive Education Department of Appomattox County High School and will be held in Room 305. The registration fee is $5.00.

This class will deal with the aspects of stress and how to control it from day to day. Employees, employers, or anyone who experiences stress situations will benefit from this seminar.

Enrollment is limited to 24 and advanced payment of the registration fee is required. To register, please send $5 check made payable to Appomattox County High School to Mr. John P. McHale, Appomattox County High School, Appomattox, VA 24522. For more information, phone 352-8317.

Festival shirts on sale

Tee shirts for this year's Historic Appomattox Railroad Festival have arrived, according to Nelwyn Morris, festival board spokesman.

The shirts may be purchased at Appomattox Rexall Drug Store, the Division of Motor Vehicles office on Court Street, or by contacting any member of the festival board.

Morris and other board members ask the help of the community in supporting the 1984 festival by purchasing a tee shirt.

LD group to meet

The Lynchburg Area Association for Children with Learning Disabilities will hold it's final meeting for the 1983-84 year at 7:30 p.m. at Holy Cross Regional School, 2125 Langhorne Road on May 21.

The topic for this panel discussion will be "Where is the L.D. action after high school?". The discussion will involve options that are available for the L.D. young adult about to enter the world of college or work.

The moderator for this panel discussion will be Charlotte Asherman, hostess on WSET's Metro. The panel members will include Nancy Robertson from the Virginia Department of Rehabilitative Services; Wayne Speer from Virginia Polytechnic Institute and State University; Carla Pommert at the University of Virginia; and Mary Ann Vogt, a counselor at Central Virginia Community College.

SEAC meeting set

Appomattox County's Special Education Advisory Committee will meet May 29 at 1 p.m. in the School Board office. The meeting is open to the public.

Committee members are Mr. Bruce Williams, Ms. Terri Barron, Mrs. Judy Taylor, Mrs. Eva Moore, Mrs. Brenda Richardson, Mrs. Danny Rogers, Mrs. Mildred Thompson, Mrs. Cecil Nash, Mrs. Ann Reynolds, Mr. Bob Jamerson, Mrs. Jean A. Hesson, Mrs. Wayne Shoemaker, Mr. Harrison West, Mrs. Nancy Woods, Mrs. Jane Wright, Mrs. Ruby Williamson, Mrs. Henrietta Johnson, Mr. Daniel Davis, Mrs. Dorinda Saxton, and Mr. Lloyd G. Walton.

This group offers recommendations to the School Board. Pesons in the community may discuss special education services with members of the committee or School Board Office personnel. Mr. Robert Jamerson serves as committe chairman.

Computer class set

The University of Virginia has scheduled an extension class in Appomattox for the summer session. The class number and title is EDCA 589: Microcomputers: Applications and Evaluation.

The class instructor is Martin Q. Miller, Jr., with Dr. Donald Ball, class advisor. Three hours of graduate or undergraduate credits will be given for a successful completion of the class.

The class will begin on June 4, at 7 p.m. in the computer laboratory at Appomattox County High School.

The Appomattox County School Board arranges with the University of Virginia School or Continuing Education for classes to be offered in the Fall and Spring semesters and for a three weeks session to be conducted each June. These classes are planned for instructional personnel who are renewing teaching certificates, seeking additional endorsements or gaining depth in their respective areas of assignment.

The classes are open to persons in the community who desire to enroll. The tuition cost for non-teaching individuals is $165.00 per class.

Additional information may be secured by call Mrs. Jean Hesson at the School Board Office. The telephone number is 352-8251.

New service offered

Lynchburg General-Marshall Lodge Hospitals announces the opening of Urgent Care Plus on Tuesday, May 15.

Located next to the emergency department at Lynchburg General, Urgent Care Plus will offer prompt, walk-in medical care for any kind of medical problem, illness or injury.

When you arrive at Urgent Care Plus, you will be examined, diagnosed and cared for quickly; you will be seen by a physican within minutes of the time you arrive. Also, the hospital's full range of services, including CT Scans, laboratory tests or any other tests will be immediately available.

According to Raymond Hogan, hospital president, "We are pleased to have this new service available to the residents of Central Virginia. Lynchburg General will continue to give the same high quality health care we have given our community for the past 25 years."

"With Urgent Care Plus, you will now receive faster treatment at fairer prices," he concludes.

Concert set for Sunday

The Lynchburg Symphony Orchestra, under the direction of Bruce Habitzruther, concludes its first season with a concert Sunday afternoon, May 20, at 3 p.m. in E.C. Glass auditorium.

According to business manager Wanda Zobdiw, the program was chosen especially to end the climactic first year of the Symphony.

"We thought it fitting to end with the dazzling but difficult Pictures At An Exhibition, by M. Moussorgsky, orchestrated by Maurice Ravel. We also feature the internationally known tenor, Bill DuPre, who is from Roanoke, and whom many people in this area know," she says.

The concert opens with the Overture from Carmen, by Georges Bizet. Mr. Dupre sings "Granada," "The Blue Bird of Happiness," and the aria, "Che Gelida Manina," from La Boheme, by Puccini. Zobkiw adds that Mr. DuPre may add a selection of spirituals, for whose interpretation he is widely acclaimed.

With this concert, as with the others, Zobkiw asserts that the Symphony has achieved its objective of something for everybody, also a theme for the year. "Part of it is luck" she says. "Mr. DuPre is known for his 'voice of uncommon beauty and extended range that can electrify an audience." He has sung in 44 countries on three continents, in the Palace at Monaco, at the White House before both the Kennedys and Nixons, in the motion picture "Inchon," and also at the Metropolitan Opera House in New York City. In his varied repertoire he sings all types of music in many languages.

The concert is part of the 83-84 season ticket, but individual tickets for this performance may also be purchased at Tom Jones Drug Store, L. Oppleman's, both Roberts Piano locations, and at the Box Office. Prices are $5.00 general admission and $2.00 for students. The subscription drive for the 1984-1985 season begins at the end of the concert and continues through May.

Use care when storing clothing

By OCIE M. MACK
Extension Agent

It's time again to put on spring and pack up winter. Although it seems unimportant, careful storage of the cold-weather wardrobe can save time, trouble and even money next winter.

Closets, extra drawers or attic space make good storage places. Basements and garages tend to be too damp for storage. Also, avoid closet or storage areas that have water pipes running through them.

Storage time is perfect for weeding out the clothes no longer needed or worn. Donate them to charity and get them out of the way.

It also is a time to do such mending jobs as replacing buttons or darning holes before storing the items. Fasten all hooks, snaps and buttons and close the zippers to prevent loss of shape or snags.

Store only clean clothes. Never store anything that is stained. Not only do some stains become permanent over time, but dirt also attracts moths. Be sure clothes are thoroughly dry before storing as moisture means mildew.

When storing clothes made of natural fiber, moth balls or crystals should be scattered throughout the storage area. Put them in drawers or on shelves, but keep them from coming in direct contact with clothes.

Since dryecleaning fluid kills moth eggs, a person doesn't have to use moth balls with dryecleaned items.

Don't store clothes in the dryclean-er's plastic bags or wrap any clothes in plastic. Plastic doesn't breathe and moisture may accumulate. The best way to protect garments from dust is to wrap them with a sheet.

Garments stored flat may be wrapped in a clean white sheet or cloth. They also may be stuffed slightly with cloth to help avoid creases. Knits and fragile items, like beaded clothes, may stretch out if hung and always should be stored flat.

Use cloth as much as possible when storing, since paper contains acids that eat at fibers over time.

Use padded hangers when storing to keep garment shoulders in shape, to insure even weight distribution of the seams and to prevent creases. Skirts should be hung on hangers with padded clips.

Shoes and winter boots to be stored during the summer need the same consideration as clothes. Clean and polish them and have them reheeled or reheeled if necessary. Stuff shoes with tissue paper to keep their shape and store them in their boxes. Boots require boot trees and should be covered with old sheets or pillowcases to keep off the dust.

Open closets, drawers and storage areas occasionally during the summer if they are not opened regulary for use. This gives a person the opportunity to check for moisture or mildew and allows fresh air to be circulated.

Best of all, the clothes will be ready when the cold weather hits next winter.

AMS plans 'Activity Night'

The Appomattox Middle School PTA will hold its fourth annual PTA Activity Night on May 18, from 5:30 to 8:30 p.m. This is the PTA's single fund-raising project and it's a great family event.

Some of the activities include a computer gameroom, a haunted house, putt-putt, a cake auction, basketball free-throw, and ring-toss.

There will be hot dogs, potato chips, brownies, cupcakes, cookies, drinks and other goodies for sale, so there is no need for you to cook supper! And, to top it off, at 8:00 there will be three drawings for prizes consisting of a wall unit, a portable radio, and a calculator. There will even be a country store where you can purchase anything from a paperbook to an umbrella.

The middle school PTA would like to thank all individuals and local businesses whose contributions have made this event possible.

Come on out for a fun-filled evening and help support AMS!

Admission is only 25 cents.

MRS. JEANNIE ISSACS' Kindergarten class at Appomattox Primary School presented an Easter play in April. "The Country Bunny" was staged April 18 at the school. The class was very pleased with the good attendance of parents of relatives.

Diabetic association to meet at Drakes Branch

The Southside Diabetic Association will hold its monthly meeting May 19 at 7:30 p.m. at the Drakes Branch Municipal Building.

The program will deal with the onset of diabetes in adults. Discussion will also involve traveling tips for diabetics, and there will be some tasty samples of recipes for diabetic cooking.

Diabetics and their families are invited to the meeting, to come and learn to live well with diabetes.

The Southside Diabetic Association is a ministry of the Foundation of Christian Medical Care.

NOTICE TO THE PUBLIC OF A PROPOSED RATE INCREASE BY VIRGINIA ELECTRIC AND POWER COMPANY

Case No. PUE840021

On March 30, 1984, Virginia Electric and Power Company (hereinafter "Vepco") filed an application with the State Corporation Commission for an increase in rates. On April 6, 1984, Vepco filed an amendment to its initial application which made several changes necessitated by Commission orders of March 27, 1984, in Case Nos. PUE830041 and PUE840006, which were related to the cancellation of North Anna Unit 3 and Vepco's annual fuel factor respectively. The application, as amended, seeks an increase in annual revenues of $25,296,000 to be allocated equally among the various customer classes based upon present non-fuel revenues. This allocation results in a 2 percent increase in base rates. The proposed increase was filed in conjunction with the annual Financial Operating Review (hereinafter "FOR") data submitted by Vepco and based upon a test period ending December 31, 1983. Pursuant to the Commission's revised FOR procedure, Vepco requested that the increase be allowed to go into effect, on an interim basis and subject to refund, 30 days after the application was filed. The proposed increase is based upon test period adjustments and ratemaking allowances as prescribed in the Commission's FOR guidelines for electric utilities. Vepco also filed with its Application proposed changes to its rates, terms and conditions applicable to Parallel, Relay and Breakdown customers with a requested effective date as determined in the final order in this proceeding.

On April 25, 1984, the Commission staff filed a preliminary evaluation of Vepco's application. The Staff advised the Commission that the accounting adjustments in Vepco's application appeared to be in compliance with the Commission's FOR guidelines but that the requested increase in annual revenues should be reduced by $740,000 to $24,556,000 to account for the reduction in the Special Revenue Tax rate for the tax year 1984. The Staff noted that information on the tax rate reduction was unavailable in time to be included in Vepco's application. The Staff also noted that the amount of the proposed increase will be reduced further by an Internal Revenue Service (hereinafter "IRS") ruling which Vepco received on April 11, 1984, concerning the amortization of Investment Tax Credits.

By order entered April 27, 1984, the Commission determined, pursuant to §56-240 of the Virginia Code, that there was a reasonable probability that the requested increase in annual revenues of $24,556,000 will be justified after a full investigation and hearing. As provided by the FOR procedure guidelines, the Commission therefore authorized Vepco to place that increase into effect for service rendered on and after April 30, 1984. The increased revenues received by Vepco will be collected on an interim basis and subject to refund pending the Commission's final order in this proceeding.

A public hearing on Vepco's application is scheduled for July 26, 1984 at 10:00 a.m. in the Commission's Courtroom, Jefferson Building, Bank and Governor Streets, Richmond, Virginia to receive evidence relevant to Vepco's application.

A copy of Vepco's application is available for public inspection during regular business hours at any Vepco office where customer bills may be paid and at the SCC Document Control Center, Floor B1, Jefferson Building, Richmond, Virginia.

Any person desiring to comment in writing on the application may do so by directing such comments to the Clerk of the Commission as provided below. Any person desiring to make a statement at the public hearing, either for or against the application, need only appear in the Commission's Courtroom at 9:30 a.m. on the day of the hearing and identify himself or herself as a public witness.

On or before June 27, 1984, persons desiring to participate as protestants, as defined in Rule 4:6 of the Commission's Rules of Practice and Procedure (hereinafter "SCC Rules"), to present evidence and cross-examine witnesses, shall file an original and fifteen (15) copies of a Notice of Protest, as described in SCC Rule 5:16(a) with the Clerk of the Commission and serve a copy upon Vepco. Service upon Vepco shall be directed to Evans B. Brasfield, Esquire, Hunton and Williams, P. O. Box 1535, Richmond, Virginia 23212. A copy of the Notice of Protest should also be served upon the Division of Consumer Counsel, Office of Attorney General, 101 North 8th Street, 5th Floor, Richmond, Virginia 23219.

On or before July 12, 1984, each protestant shall file an original and fifteen (15) copies each of a protest (SCC Rule 5:16(b) and of the prepared testimony and exhibits protestant intends to present at the public hearing, and serve a copy upon Vepco and each protestant.

Any party participating as a protestant should review the instructions regarding discovery set forth in the Commission's order in this proceeding dated April 27, 1984.

All written communications to the Commission regarding this case should be directed to William C. Young, Clerk, SCC Document Control Center, P. O. Box 2118, Richmond, Virginia 23216.

By order of:

VIRGINIA ELECTRIC AND POWER COMPANY

The Virginia State Corporation Commission 80-18/5t6/1.4mm

NOTICE TO THE PUBLIC OF AN INVESTIGATION OF THE CORPORATE REORGANIZATION OF VIRGINIA ELECTRIC AND POWER COMPANY

Case. No. PUE 830060

On May 19, 1983, Virginia Electric and Power Company ("Vepco") consummated a corporate reorganization whereby a new holding company, Dominion Resources, Inc., ("Dominion") was created, which now holds all outstanding Vepco stock. By order entered September 6, 1983, in Case No. PUE 830060, the Commission found that Dominion's plans for the reorganized corporate structure of Vepco and its impact upon future operations of Vepco should be thoroughly investigated to determine possible adverse probable effects upon ratepayers. At the initial step in this investigation, the Commission directed Vepco and Dominion to file certain preliminary information on the reorganization and the present and proposed operations of the various subsidiaries of Dominion, existing and projected.

Vepco and Dominion filed their response to the Commission's order on September 20, 1983. The filing indicates that current organizational plans of Dominion include the possible establishment of the following subsidiaries: a natural resource exploration company, a company to pursue development of a coal slurry pipeline, a company or companies to own Dominion's share of jointly owned electric generating companies, to provide energy to Vepco under contract, and a company to administer the charitable programs of, and make grants for, Dominion, Vepco, and the other subsidiaries as they are created. Dominion Resource Services, Inc. ("Services"), an existing subsidiary of Dominion, is intended to provide staff and support services to Vepco and other Dominion subsidiaries.

On September 23, 1983, Vepco, Services, and Virginia Natural Gas, Inc. ("VNG") filed an application (assigned Case No. PUE 830062) with the Commission requesting authorization under Chapters 3, 4, 5, and 10.1 of Title 56 of the Code of Virginia to implement the transactions and arrangements detailed in the application. These transactions and arrangements include: (1) the transfer of Vepco's gas division into VNG, which initially will be established as a Vepco subsidiary, (2) the transfer of the shares of VNG common stock from Vepco to Dominion by means of a dividend, thereby making VNG a subsidiary of Dominion, (3) the transfer to Dominion of the common stock of Virginia Nuclear, Inc. ("VNI") held by Vepco by means of a dividend, thereby making VNI a subsidiary of Dominion, (4) establishment of the capital structure of VNG to reflect the same percentage of common stock, preferred stock, and debt as the capital structure of Vepco at the date of reorganization, (5) the approval of service agreements between Vepco and Services, VNG and Services, and Vepco and VNG, (6) the transfer of Vepco employees to Services to perform the staff functions being transferred to Services, (7) the granting of certificates of public convenience and necessity to VNG to serve the territory presently served by the gas division of Vepco. The companies filed a supplement to their application on September 30, 1983, and filed testimony in support of their application on October 4 and December 16, 1983.

To enable Dominion Resources, Inc. to function on the day of its inception, the Commission, by Interim Order filed on May 18, 1983, in Case No. PUA830021, authorized Vepco to furnish necessary services to Services and thus to Dominion in the manner set forth in the Amended Application and service agreement filed by Vepco and Dominion in that proceeding on April 22, 1983. The Commission also provided that the Interim Order would be superseded by a final order after the issues had been fully considered.

By order filed April 27, 1984, the Commission consolidated the three proceedings in Case No. PUE830060 and scheduled a public hearing before a Hearing Examiner to begin at 10:00 a.m. on October 23, 1984, in the Commission's Courtroom, 13th Floor, Jefferson Building, Bank and Governor Streets, Richmond, Virginia to receive evidence relevant to all matters related to the corporate reorganization of Vepco. The order stated that the following areas of inquiry are of particular interest to the Commission:

(a) Is it in the public interest for Vepco to vertically disintegrate (partially or completely) so that all, or any portion thereof, of the generating capacity required to serve its service territory is provided through contracts with entities which are affiliated with Vepco in any manner described in Virginia Code §56-76?

(b) Is it in the public interest for the Commission to allow actions to be taken by Vepco, Dominion, VNG, and Services (hereinafter "Companies") which would result in the loss of jurisdiction for setting rates for Virginia ratepayers, in whole or in part, by the State Corporation Commission of Virginia?

(c) What are Vepco's projected generation capacity requirements for the next 30 years and what are the utility's plans to satisfy its service requirements with regard to the sources of energy (including cogenerators and small power producers), entities involved, and the mechanism or agency by which rates will be set?

(d) Is it in the public interest for Vepco employees to be transferred to a service company for the purpose of providing services to Dominion, Vepco, other subsidiaries of Dominion not yet in being, or unaffiliated interests?

(e) Is it in the public interest for Vepco to spin-off its gas division as a subsidiary of Dominion?

Companies were ordered to file additional testimony on the delineated issues on or before June 25, 1984.

Parties who wish to speak at the public hearing and not participate as a Protestant, may be scheduled by writing the address listed in the last paragraph of this notice. Any person who wishes to comment in writing should send such comment to the same address.

Copies of the applications of Companies, the material filed in connection with Commission order in this proceeding, and the testimony of Vepco's witnesses may be reviewed in the Document Control Center of the Commission or at any office of Vepco where bills may be paid. The additional testimony and evidence to be filed by Companies on or before June 25, 1984, will also be made available for review.

On or before July 2, 1984, all persons who expect to submit evidence, cross-examine witnesses, and otherwise participate as Protestants, as provided by Rule 4:6 of the Commission's Rules of Practice and Procedure shall file with the Clerk of the Commission an original and twenty (20) copies of a Notice of Protest as required by Rule 5:16(a). A copy of the Notice of Protest shall be served on Companies' counsel, Evans B. Brasfield, Esquire, Hunton & Williams, P. O. Box 1535, Richmond, Virginia 23212.

On or before September 28, 1984, all persons who have filed a Notice of Protest and who still expect to participate at the hearing as a party Protestant must file an original and twenty (20) copies of a written Protest as required by Commission Rule 5:16(b) and of all prepared testimony and exhibits of the witnesses to be offered at the hearing and shall serve five (5) copies thereof upon counsel for Companies and three (3) copies upon all other Protestants.

On or before September 28, 1984, the Commission's Staff shall file with the Clerk the prepared testimony and exhibits of each witness expected to present direct testimony and shall serve a copy upon Companies' counsel and each Protestant.

On or before October 12, 1984, Companies shall file with the Clerk and each Protestant the testimony and exhibits it expects to introduce in rebuttal to the direct pre-filed testimony and exhibits of the Commission Staff and the Protestants.

Any party participating as a Protestant should review the instructions regarding discovery set forth in the Commission's order in this proceeding dated April 27, 1984.

All written communications to the Commission regarding this case should be directed to William C. Young, Clerk, SCC Document Control Center, P. O. Box 2118, Richmond, Virginia 23216.
